

Tracy McSheery - CEO of PhaseSpace

Born in 1960 in Oregon, Mr. McSheery has lived on most of the west coast including Alaska, Washington, and California. Prior to founding PhaseSpace, Inc., Mr. McSheery graduated from UC Berkeley in 1981 with a BS in Mechanical Engineering, and UC Davis in 1993 with a Masters in Applied Physics.

Mr. McSheery then went on to become a Lieutenant in the United States Navy where he managed over four hundred people and several million dollars in equipment and budgets.

At PhaseSpace, Mr. McSheery has designed, prototyped, and delivered position tracking systems for computer animation, telepresence, sports medicine and virtual training. He has also been a consultant on numerous engineering issues, particularly where technology plays a central role. He also does consulting work for several local companies on areas ranging from biomedical devices to education software.

In his spare time Mr. McSheery writes music, lyrics, poems and has several books and novels in various forms of incompleteness. He also coaches and referees soccer.
